FDD Abstract of

25X1

REPARATIONS SHIPMENTS THROUGH RAILROAD DISTRICT No 6 (3 pp; German; November, presumably 1951)

Page 1 of the document, apparently the cover sheet, contains this typewritten information: "reparation trains via Reichsbahn district No 6; headquarters: Pankow; lines: - Eberswalde, -Neustrelitz, - part of the Outer Belt." The word used for Reichsbahn district (Reichsbahnbereich) is inconsistent with standard usage. There is a Reichsbahnamt Berlin 6, a subdivision which includes Pankow.

Pages 2 and 3 are photostat copies of a handwritten list with ten columns which are headed as follows: date (25 through 30 November), train number, transport number, number and type of cars (between 34 and 56 cars, mostly gondolas and box cars), type of freight (mostly coal and potash), number of axles (indicating almost exclusively 2-axle cars) and tonnage (ranging from 912 to 1,587 tons), station of origin, station of destination (all Baltic Sea ports), time of arrival, and time of departure.
